

Topic/Title:

Stacking Order / Media queries / Refactors

Keywords/Questions:

z-index:
integer

Notes:

Default z-index = 0

if the position is not explicitly mentioned the z-index cannot be applied

But don't work with the position static

Media QUERIES

@media <type> <feature>

min-width
max-width

(min-width and max-width)

Refactors

Readability
Modularity
Efficiency
Length

Summary:

multiple selector : selector1, selector2, selector3, selector4...{.....}

hierarchical selectors : selector1 selector2{.....} #lecture de droite a gauche

combined selector: selector1selector2{....} #lecture de gauche a droite
